## CHERTSEY SWAN SONG

This handleless kitchen presents a bold, contemporary design. The striking monochrome palette features dark grey cabinetry and a large central island topped with a light composite stone worktop. The sleek, modern aesthetic is complemented by industrial-style black pendant lights and plush grey stools, creating a modern and sophisticated space.

## BRIGHT & INVITING HANDLELESS KITCHEN

We received a brief from one of our contacts, Property Partnership, a local building company, to design a kitchen for one of their clients. With a sleek, streamlined design it's often a good idea to add texture and we did this by using both Bergamo and Como gloss doors in platinum grey. A white fine-flecked quartz was used on both the island and main worktop, keeping the light, bright feel to the kitchen

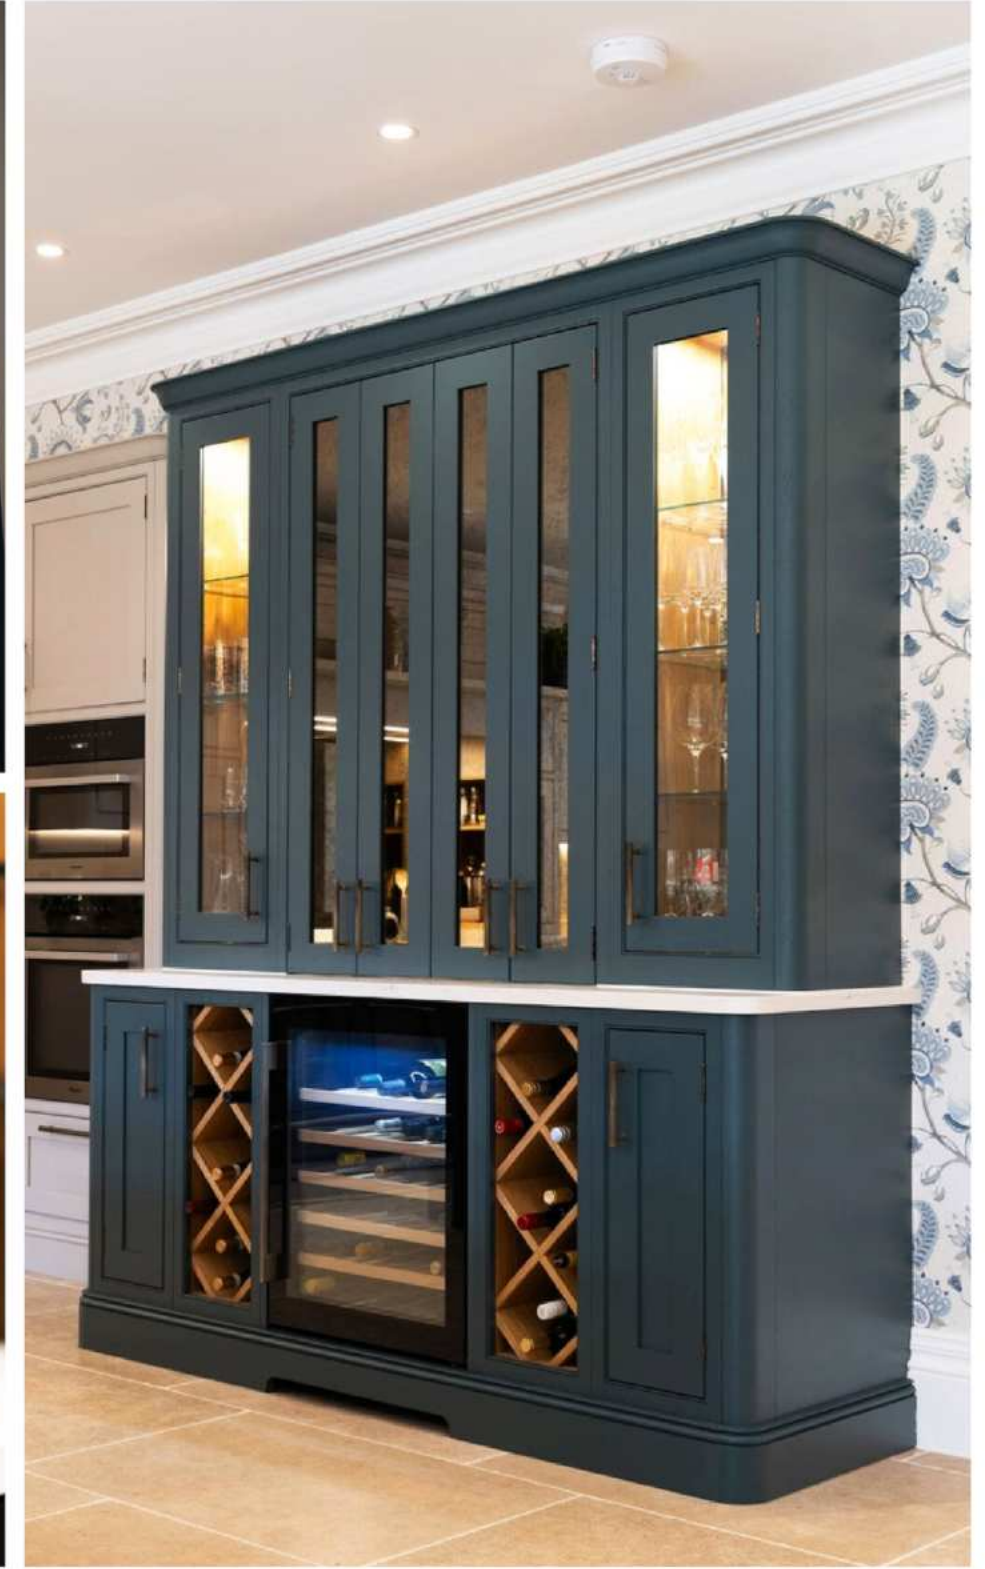

## AN OPULENT YET HOMELY SPACE

This beautiful kitchen was situated in a large newbuild home with a traditional feel. The main kitchen colour is warm and neutral for a timeless feel. Modern knurled antique brass handles tie in with the antique bronze mirrored splashback in the mantel section. The walk-in pantry is finished in the same Inchyra blue and, although separate, ties in the two spaces beautifully.

## LOCATION, LOCATION, LOCATION

This beautiful shaker kitchen harmoniously combines rich navy cabinetry with a natural wood dining island and vibrant yellow upholstered chairs, establishing a sophisticated yet welcoming atmosphere. The expansive white worktops and skylight invite brightness into the room, marrying classic design with a fresh, contemporary feel.

## A KITCHEN FIT FOR A STately HOME

This kitchen, although not vast, had to complement the high standards and beauty of our client's home nestled within a large private estate. With tall ceilings and windows overlooking the expansive grounds, the new kitchen was designed with elegant shaker-style painted cabinetry, Cimstone white Quartz worksurfaces and a champagne gold tap.

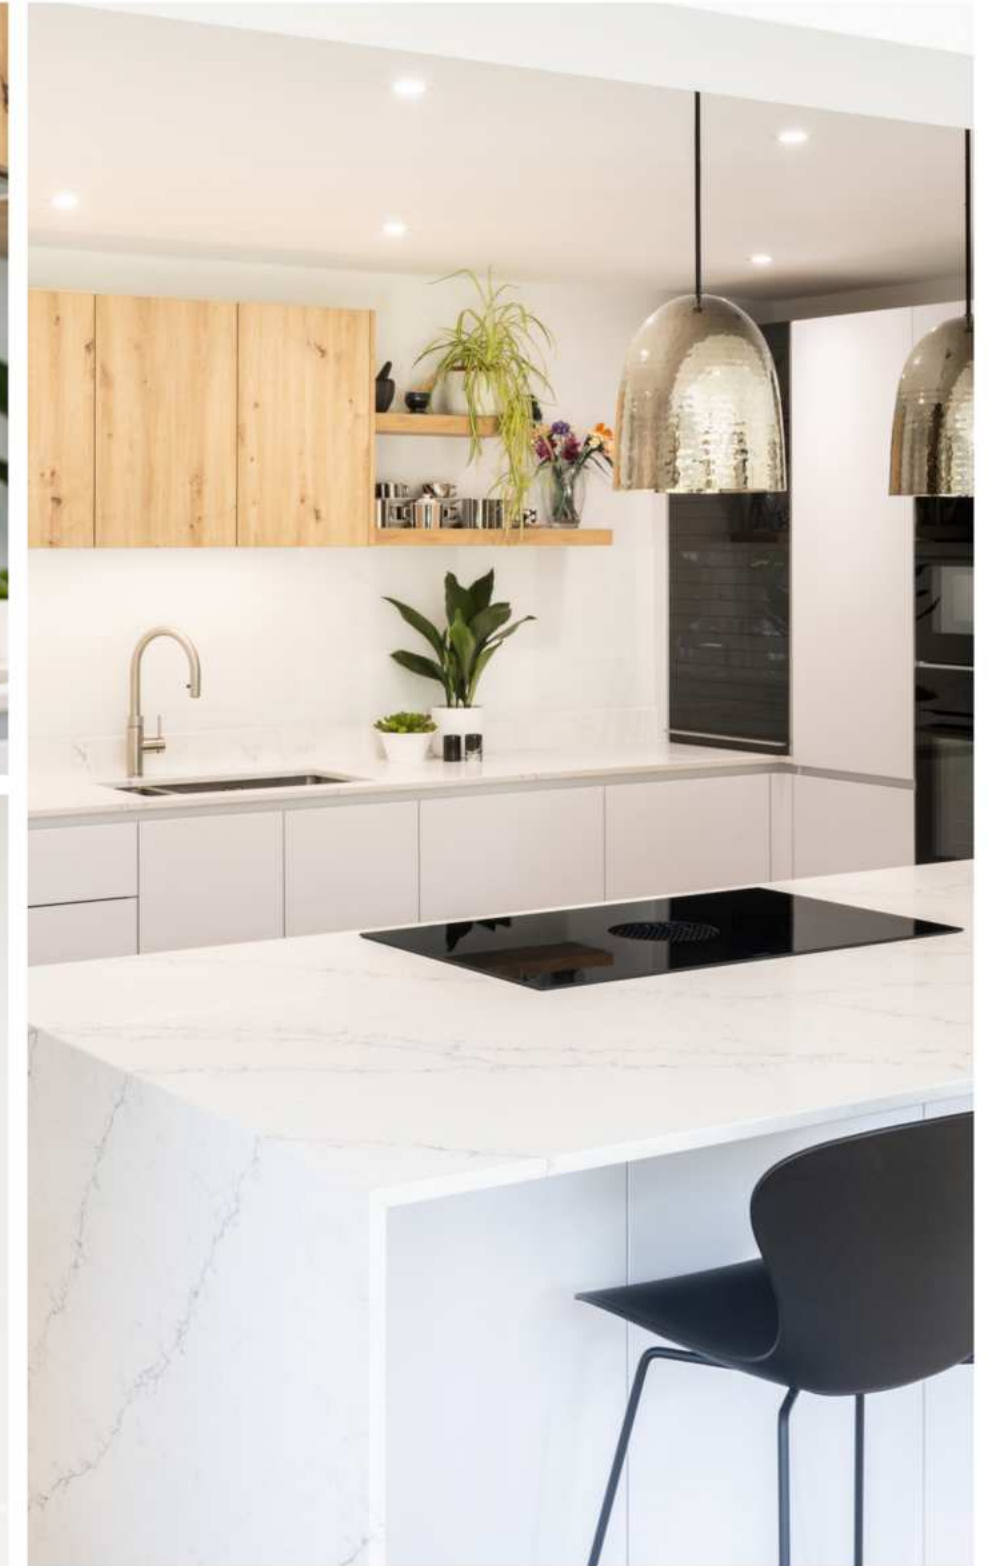

## FROM DARKNESS TO LIGHT

This sleek kitchen design features clean white cabinetry contrasted with warm wooden accents, creating a modern yet inviting space. The natural wood upper cabinets add a touch of organic warmth, synchronising with the light wood flooring. Strategic lighting enhances the bright, airy feel, while a wine cooler and marble accents on the worktops add a wonderful touch of luxury.

## CLASSIC MEETS CONTEMPORARY

This inviting kitchen features crisp white cabinetry and a sleek island centrepiece, paired with chic leather bar stools and elegant gold pendant lights. Natural light floods through the large glass doors, highlighting the warm wooden floors and fresh greenery, creating an open and airy space that's perfect for cooking and socialising.

## A KITCHEN WITH A VIEW

This kitchen showcases a seamless blend of elegance and functionality, with flawless composite stone worktops set against sophisticated grey cabinetry. The space is brightened by stylish recessed lighting and boasts a state-of-the-art hob and built-in appliances, creating a characterful yet understated atmosphere that's both inviting and modern.
